Brad Pitt, *Rx for Survival* Narrator

The *Rx for Survival* series is narrated by actor Brad Pitt, a recognized voice for improving health and poverty in the developing world. Through *Rx for Survival*, Pitt will share the compelling stories of health leaders in communities around the world who have found creative ways to overcome the burden of disease and inspire a better future for all.

Statement from Brad Pitt:

“While recently in Africa, I saw firsthand how societies are crippled by disease. I met children who want to be doctors, engineers, pilots, and teachers when they grow up, but their potential is limited because they are sick and—according to statistics—they may be one of the millions of kids who will die this year from preventable or treatable problems like pneumonia, diarrhea and malaria. It’s heartbreaking to see avoidable illness take away lives. I’m pleased to narrate *Rx for Survival* and help tell the stories of people like us, different only because of where they were born.”

In addition to his work with *Rx for Survival*, Pitt is affiliated with The ONE Campaign and Save the Children. His charity work ranges from child survival to solar energy advocacy. Pitt is an international star of such films as *Mr. and Mrs. Smith*, *Ocean’s 11*, *Ocean’s 12*, *Fight Club*, *Legends of the Fall*, *A River Runs Through It*, and *Seven* among others. His new projects include *Babel* and *The Assassination of Jesse James by the Coward Robert Ford*. He is also a partner in Plan B productions.
